Minitab

Top 4 R&D Challenges and Solutions

It is difficult to find the right partner aligned to your requirements

Minitab Solution:

- Industry leader for 50+ years helping businesses like Stryker and Bayer
- Best-in-class analysis tools, including regression analysis, reliability tools and hypothesis tests
- Graph builder feature for visualizations of scientific data
- Predictive modeling to forecast future market conditions

Time and resources are scarce

Minitab Solution:

- Sample size selection to assess cost and feasibility to ensure resources are used effectively
- On-demand and personalized training
- Our online education platform will help you learn statistics and Minitab at your own pace

Budget limitations exist and gaining buy-in is burdensome

Minitab Solution:

- Fewer failures due to DOE and predictive modeling
- Simple send to PowerPoint for familiar formats
- Straightforward reports and dashboards for your team and stakeholders
- Dependable, accurate results

Tools and systems are overly complicated

Minitab Solution:

- No coding required
- Designed for non-statisticians
- Built in content-sensitive help system
- Many industry use cases online

Accelerate your digital transformation
